A Bible Courtship.

A young gentleman at church, conceived a most sudden and violent passion for a young lady in the next pew, and felt desirous of entering into a courtship on the spot, but the place not suiting a formal declaration the exigency suggested the following plan. He politely handed his fair neighbor a Bible, open, with a pin stuck in the following text—second epistle of John, verse 6: "And now I beseech thee, lady, not as though I wrote a new commandment unto thee, but that which we had from the beginning, that we love one another." She returned it with the following—second chapter of Ruth, verse 10: "Then she fell on her face and bowed herself to the ground, and said unto him, why have I found grace in thine eyes, that thou shouldst take notice of me, seeing I am a stranger?"

He returned the book, pointing to verse 12 of the third epistle of John, and saying, "I would not write with ink, but with milk, but I trust to come unto you and speak face to face." From the above interspersed the marriage took place the coming week.—Scottish American.

Who Can Answer This Conundrum?

In the memoirs of Baron Stockmar is a note by his son, the editor of the work, in these words: "There were not wanting instances of shamelessness against which he had to defend himself. A rich Englishman, an author and member of parliament, called upon him one day and promised to give him £10,000 if he would further his petition to the queen for a peerage. Stockmar replied: 'I will now go into the next room in order to give you time. I shall have my return I still had you here I shall have you turned out by the servant.'"

Very creditable, of course, to Stockmar, considering his circumstances and position. The incident occurred in the early forties apparently, and there were not many rich Englishmen at that period who were both "authors and members of parliament." But I am not aware that anybody has as yet identified the would be corrupter of the immaculate baron. Who could he have been? And did he get his peerage in the end?—London World.

A Kentucky War Story.

An old Confederate soldier said recently: "I remember an occasion where a colored man, a body servant to General Forrest, saved his life. The general had broken two swords, and the servant rushed forward and handed him another to defend himself with. This occurred at Sacramento, a little village in McLean county, and the combat was with John Williams, the grandfather of John McIntire, the artist, who lived in Owensboro for some time. Mr. Williams was a gallant Federal soldier, who had served in the Mexican war and made a good fight. He fought so well that General Forrest paroled him and accompanied him to his home in the neighborhood and asked him to go to and look up his wound and care for him, saying that so brave a man deserved the best of care and attention."—Owensboro (Ky.) Inquirer.

An Early Betrothal.

In the early days of California the daughters of the Lugos were sought in marriage by the best families of the state. It was a boast that they were even courted in the cradle, as when the young officer, Colonel Ignacio Vallejo, being in San Luis Obispo on the occasion of the birth of a daughter to the Lugos, asked her father for the hand of the day old baby, provided when the time came to fulfill the contract the senior should be willing. This seeming absurd betrothal took place. The child grew up to be an intelligent as well as attractive young woman, married her betrothed and became the mother of many children, among them Mariano Guadalupe Vallejo.—Overland Monthly.

Portrait of Commodore MacDonough.

A recent addition to the portrait gallery of the navy department is a rare old oil portrait of Commodore MacDonough, the naval hero who rendered Perry valuable assistance in his memorable engagements on the lakes in the war of 1812. The portrait is the work of Jarvis and is owned by one of the old families of Charleston, S. C. Assistant Secretary MacDoo saw it on a recent visit to that city and brought it back with him to Washington with a view to its purchase by the government, as a companion piece to the portrait of Commodore Perry, now in the navy department gallery.—Washington Star.

Slow to Tumble.

She had now become desperate. "Your family has a grand name," he observed. "I would prefer almost any other," she rejoined with a promptness sufficient to suggest that she had given the subject thought. After a time she sat as one in a trance, and wondered what would be the chances of his tumbling if a wheat elevator were to precipitate itself upon him.

THE MUSCULAR SYSTEM

of every weary, thin or thin blooded person does its work with constant difficulty and fatigue. They feel "worn," or tired out, "run-down" or nervous. Feeble people who are despondent, and that excrete after a meal is sure to cause lessened power to digest food—because there is so little blood, and what there is, is carried off from the gastric organs to the muscles. What is needed is plenty of blood, and that of the right kind. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and to gain in blood is nearly always to gain in *wholesome flesh* up to the healthy standard. Every one should have a certain surplus of blood to meet the emergency of sickness; to resist the attack of consumption, grip, malaria and fevers. Thin blooded people are always getting sick, and none of the organs of the body can get along without the food they require for work, which is pure blood. To gain and to keep strength and flesh is the secret of health, usefulness and happiness. With new blood and refreshed nerves a confident feeling of returning health comes also. Nervous manifestations, such as sleeplessness, nervous debility and nervous prostration are in nine cases out of ten "the cry of the starved nerves for food." If you feed the nerves on pure rich blood the nervous symptoms will disappear. It is best practice to put the nerves to sleep with so-called sedative mixtures, coca compounds or malt extracts; what is needed is a blood maker. The Discovery is composed of vegetable ingredients which have an especial effect upon the stomach, liver, and blood making glands. For the cure of dyspepsia, indigestion, liver complaint, weakened vitality, and for puny, pale people, Dr. Pierce's Golden Medical Discovery cannot be equaled. Thousands have testified to its merits.

GENERAL SCHOFIELD RETIRES.

Lieutenant General John M. Schofield of the United States army has retired, having attained the age of 64 years, the limit allowed by law for active service. The title, which was revived by act of Congress last February for General Schofield, expires with his retirement. It was created for General Grant and had been bestowed on Generals Sherman and Sheridan. Major General Miles is expected, as senior officer of that rank, to assume command of the army with headquarters at Washington, but not as Lieutenant General.

General Schofield was born in Chatauque county, New York, in 1831. He graduated at West Point Military Academy in 1853. At the outbreak of the war he was commissioned as Major of the First Missouri Volunteers. His promotion was rapid and in November, 1861, he was Brigadier General of Missouri Volunteers. In 1861 he was promoted to the rank of Brevet Major General in the regular army. In 1868 he was appointed Secretary of War under President Johnson. In 1870 he was commander of the military academy at West Point and in 1883 succeeded Lieutenant General Sheridan as Major General commanding the army.

General Schofield, though as a military man never taking a very active part in politics, has always been a Democrat and has been mentioned as a possible Presidential candidate in 1896. He is a bimetallist and favors the free coinage of silver and it is possible that he may be the choice of the silver wing of the Democratic party for President next year in the event of a bolt on the monetary question.

HARRISON'S REFUSAL.

It is given out by Republican steers in the east that Harrison will not be a candidate for the Presidency in 1896 and that he had bequeathed his boom to McKinley. When interviewed on the subject General Harrison declined to discuss the matter, and his friends laugh at the story, and declare it to be one of the methods used to draw him out. They say the race for the nomination is free for all and that stories of declined nominations must be taken with a grain of salt. No one, so far, has declined a nomination for the Presidency and very few have declined to be candidates for a nomination. General Sherman was mentioned at one time as a probable candidate. He declared that he was not, and as he was a soldier, not a politician, the people believed what he said and no further effort was made to get him the nomination. If ex-President Harrison is not in the field and does not want the nomination there is no law to compel him to accept it, but he does not say that he does not want the nomination.

While John C. New has stated that Harrison is not a candidate and does not favor McKinley or Reed, the Indianapolis News says editorially that if the party demands Harrison's services it can have them. Putting this and that together it is evident that the ex-President is willing to take the nomination, though he would like to make it appear that it is being forced upon him as the party requires his services.

STATE ELECTIONS.

Elections will be held in twelve States the 5th of next month. These States are Iowa, Kansas, Kentucky, Maryland, Massachusetts, Mississippi, Nebraska, New York, New Jersey, Ohio, Pennsylvania and Virginia. In Iowa, Kentucky, Maryland, Mississippi, New York, Ohio and Virginia legislatures will be elected which will choose United States Senators. In some of the States Governors will be elected, but in New York, Pennsylvania and Virginia the Governors hold over another year. In Utah a full complement of State officers will be elected and if the Constitution is adopted, as it doubtless will be, two United States Senators will be elected by the Legislature.

In several of the Eastern States, as well as in Ohio and Iowa in what is called the West and in Maryland and Kentucky in the South there is no difference between the Republican and Democratic parties on the monetary question, which is considered the overshadowing issue by a large number of people, and it is really immaterial which of the Wall street twins get the offices. It is greatly to be hoped, however, that in Kentucky Senator Blackburn, who is a firm friend of silver and is making a gallant fight against the combined Republican and Administration forces, will carry the Legislature and be re-elected.

THE GOLD STANDARD BOOM.

The Silver Knight tells how the gold standard booms things. It has boomed cotton from 15 to 5 cents a pound; wheat from \$1.50 to 50 cents a bushel. It has boomed labor in two-thirds of the industries of the United States to one-third of its compensation. It is booming the fight to reduce wages in the Trade Unions, and where it dare not lower wages, it stops business or runs on short time. The whole country is booming from prosperity to poverty. Every organ of the gold trust delights in this kind of booming, because it increases the purchasing power of the money they get for assuring the people that a boom from prosperity to poverty is the sure sign of good times.

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Getting Thin

It is often equivalent to getting ill. If loss of flesh can be arrested and disease baffled the "weak spots" in the system are eradicated.

Scott's Emulsion is an absolute corrective of "weak spots." It is a builder of worn out failing tissue—nature's food that builds up and creates healthy flesh.

BOARD OF EQUALIZATION.

The Business Transacted at Yesterday's Meeting.

The Board of Equalization met yesterday pursuant to adjournment, all the members being present, and proceeded to equalize the assessment roll. The assessed valuation of the estate of J. P. Foulks, deceased, was reduced from \$1,600 to \$1,463.

J. M. Fulton, in behalf of the N-C-O Railroad asked that the assessed value of the road stand as returned by the manager. He stated upon oath that the receipts of the road from all sources since January 1, 1892, had been \$222,405 20 and the expenditures had been \$258,812 90; a net loss of \$46,407 76. The road had no subsidy, no land grant, State, county or municipal aid, and did not receive the encouragement it should. It paid out more money every month in Washoe county than any other corporation. It pays its men on the 15th of each month and does not owe a dollar. The money comes from the home office in New York, and Manager Gest was willing the property should bear its just proportion of the State, county and municipal taxes.

On motion further action on this matter was postponed until Friday, the 4th.

The assessed value of mortgages owned by George Schaeffer was ordered to stand as assessed, and a similar order was made in the case of the Hoffman estate.

The valuation of the property of Judge Marshall, H. Greer and L. Della Piazza was ordered to stand as made by the Assessor.

The assessed value of the property of A. G. Fletcher was ordered to stand as raised by the Board.

The valuation of the property of Mrs. Alice Smith was reduced from \$400 to \$250.

The valuation of the property of the Bank of Nevada was reduced \$16,200 and the property of the First National Bank was reduced \$20,000 from that made by the Assessor upon the showing that the bank buildings are part of the capital stock.

A reduction of \$200 was made in the valuation of Colonel Stanley's property.

The valuation of W. D. C. Gibson's property was reduced \$300.

A reduction of \$100 was made from the assessed valuation of F. A. Pavola's property.

Thomas Leddy's application to have the valuation of his property stand as assessed was taken under advisement. The Board adjourned.

BESTED THE V. & T.

Remarkable Experience of Christopher Columbus Powning.

In spite of all the kicks and roars from the Reno Fair, no one can deny that Christopher Columbus Powning is a hot hustler when it comes to getting a move on things.

But his great feat was in besting the V. & T. to the tune of several hundred dollars. He tried to get Yerington to run a round-trip train from the Comstock to Reno for \$1 but Yerington scoffed at the idea that such a snap would pay as he did not consider that the Fair would be much of a go any how. He wanted \$100 a day guaranteed or no train. Powning finally agreed to pay \$100 for the train and own it for the week. He closed a contract on these terms. The first three days paid for the train and Powning has been pulling down the long green ever since as a clear profit.

The boys say that when the V. & T. Directors saw the big, full trains rolling by the depot they called a meeting and blabbed internally.—Carson Appeal.

John Furlong Dead.

John Furlong, who was kicked by a horse last Thursday at the track, died Sunday evening at his home in Carson, having been taken there at his request. He insisted to the last that he was better, and his friends hoped for the best, but Dr. Manning had no hopes from the beginning and the autopsy performed by Dr. Gorman and Dr. Hennessy proved Dr. Manning's opinion in the case. It was found by the autopsy that the intestines had been broken in three places by the blow and that there was little chance for the man's life under any circumstances.

On the "Dead Square."

A. L. Leach & Co., the pool men that had the privilege here during the past week, left for Carson yesterday. The firm has secured the privilege at the Carson races and will doubtless give the satisfaction there, that they did here. The firm is composed of gentlemen and all who had dealings with them last week say that they gave eminent satisfaction. Mr. Leach and associates will be found "dead on the square," and wherever they go they will make friends.

Did the Lawyers Forget Themselves? The new town licenses have been made to cover everything, carpenters, barbers, dentists, undertakers, shooting galleries, clothes cleaners, shoemakers, cycleries, newspapers, and, in fact, everything or nearly everything except lawyers. Did the framers of the ordinances forget themselves, or was the omission intentional?

LUX'S MILLIONS.

His Step-son, Jesse Potter Will Make an Effort to Get them.

It is stated in San Francisco that Jesse Potter, the son of Mrs. Charles Lux, will make an attempt to get the Lux estate. Potter is the son of Mrs. Lux by her first husband. When she died her estate consisted principally of a fourth interest in the cattle firm of Miller & Lux. She left \$100,000 in cash to her son and made a number of bequests to relatives and charitable institutions. The remainder, amounting to over \$3,000,000, was left in trust, the income to be paid Jesse Potter during his life, and after his death the estate is to be divided among his children and two of Mrs. Lux's sisters. A clause in the will provides that in case it is contested by any of the legatees the contestant shall forfeit his legacy.

It is claimed by those who are endeavoring to get Henry Miller to wind up the estate that Potter is under his influence and obeys his orders. Potter is now executor of the estate of Charles Lux, and the other heirs have commenced proceedings to have him removed on the ground of incompetency. Lux was a full partner in the firm of Miller & Lux, and Potter as executor of that estate as well as of his mother's one-fourth interest has the management of one-half of the Miller & Lux property.

Election Contests.

The Carson News says: "The Supreme Court yesterday decided that in the contested election of the Washoe county Sheriff that Caughlin, who has held the office since the first of January, shall be ejected and the office given to the contestant, Hayes. In the Humboldt county case, District Attorney Buckner retains his office."

BREVITIES.

The Board of Regents has made arrangements for a hospital fund at the State University. Each student will be required to pay hospital dues of \$1 50 per term to be expended in providing the sick with medical attendance, nursing, etc.

Fears are entertained in San Francisco that if a verdict favorable to defendant is found in the Durrant case that violence will be resorted to, and the Sheriff is making arrangements to keep the mob at bay should an attempt be made to lynch the prisoner. If Durrant is guilty, and the evidence so far indicates that he is, he deserves death if ever a human butcher did.

My Sweatheart.

Her cheeks are like the roses,
Her brow is like the white;
And I know the reason,
She takes Parks' Tea each night,
She's strong and well and happy, too,
Her face is clear and bright,
And laughingly she tells the cause,
"I take Parks' Tea each night."

Eczema on Face, Neck and Hands
Hood's Sarsaparilla Cured All Impurity.

Mr. Augustus O. Graham Tallahassee, Ind. Ter.

"Our son Augustus was very severely troubled with eczema. Sores broke out on his face, neck and hands, and the slightest scratch on his hands would break out in bad sores."

We persuaded him to take Hood's Sarsaparilla and it has been two or three months since he has been troubled. His hands are quite smooth. Our nephew, Edgar P. Shaver, who lives with us, was afflicted similarly only his case was more severe, accompanied by scrofulous patches on his neck. He has taken four bottles of Hood's Sarsaparilla and is now well. His skin is as smooth as any one could wish, and the rashes on his neck have disappeared." Mrs. M. J. GRAHAM, Box 173, Tallahassee, Ind. Ter.
